

Smart Wi-Fi camera

MODEL : WIOT1048

Feature

- 4 Mega pixels, high-lens, high-quality
- H360° V180° PTZ rotation angle; Horizontal 85.6° and diagonal 106.6 ° HD wide-angle lens, wider field of view
- 10-meter enhanced infrared night vision, equally clear at night
- Light AI technology, 0.5T AI computer power, Support motion detection, human detection, cry detection, sound detection, area detection and real-time APP alarm push
- Two-way voice real-time intercom for communication anytime and anywhere
- Support 2.4GHZ/Wi-Fi 5 transmission, support blue tooth connection
- Optional countertop placement/wall hanging/ceiling installation, suitable for various application scenarios.

Specifications

Main Parameters	
Resolution ratio	4MP HD: 2560×1440; SD: 640×360
Lens	4mm, F2.0; (FOV) H: 85.6° ; Opposite angle 106.6°
Infrared night vision	10M black and white night vision
Pan&Tilt	Horizontal 360 degrees,Vertical 180 degrees
Main Functions	
Switch mode	Automatic
Video encoding	H.265
Audio input	Support
Two way intercom	Support
Network transmission	Support 2.4GHz/ WiFi 5 network; Support WPA and WPA2 encryption
Network protocol	TCP/IP ,IPv4, DHCP, P2P ;
Google Home, Amazon Alexa voice linkage	Could be customized, Optional
Motion detection	Support
Humanoid detection	Support
Moving objects tracking	Support
Area detection	Support
Cry detection	Support
Cruise function	Support
Alarm linkage	Support
Alarm Push	Support
Siren	Support
3X Digital ZOOM	Support
WDR	Support
Remote viewing / playback	Support
Cloud storage	Support
Local storage	Support 128GB Micro SD Card
Reset Button	Support
Other Parameters	
Light sensitivity	0.1LUX
Video Mode	HD/SD
Video system	20@FPS
One touch call	Support
Mic	Single MIC, 3M
Loudspeaker	Single loudspeaker, 8Ω1W, 3M clear intercom
Picture flip	Support
Working temperature	-10 °C to 45 °C
Working humidity	≤95%
Power Supply	DC5V 1A / USB-C
Housing material	PVC
